

GO Requirements Analysis – Completeness & Consistency Report

Bug-1

Title: Missing user data persistence mechanism

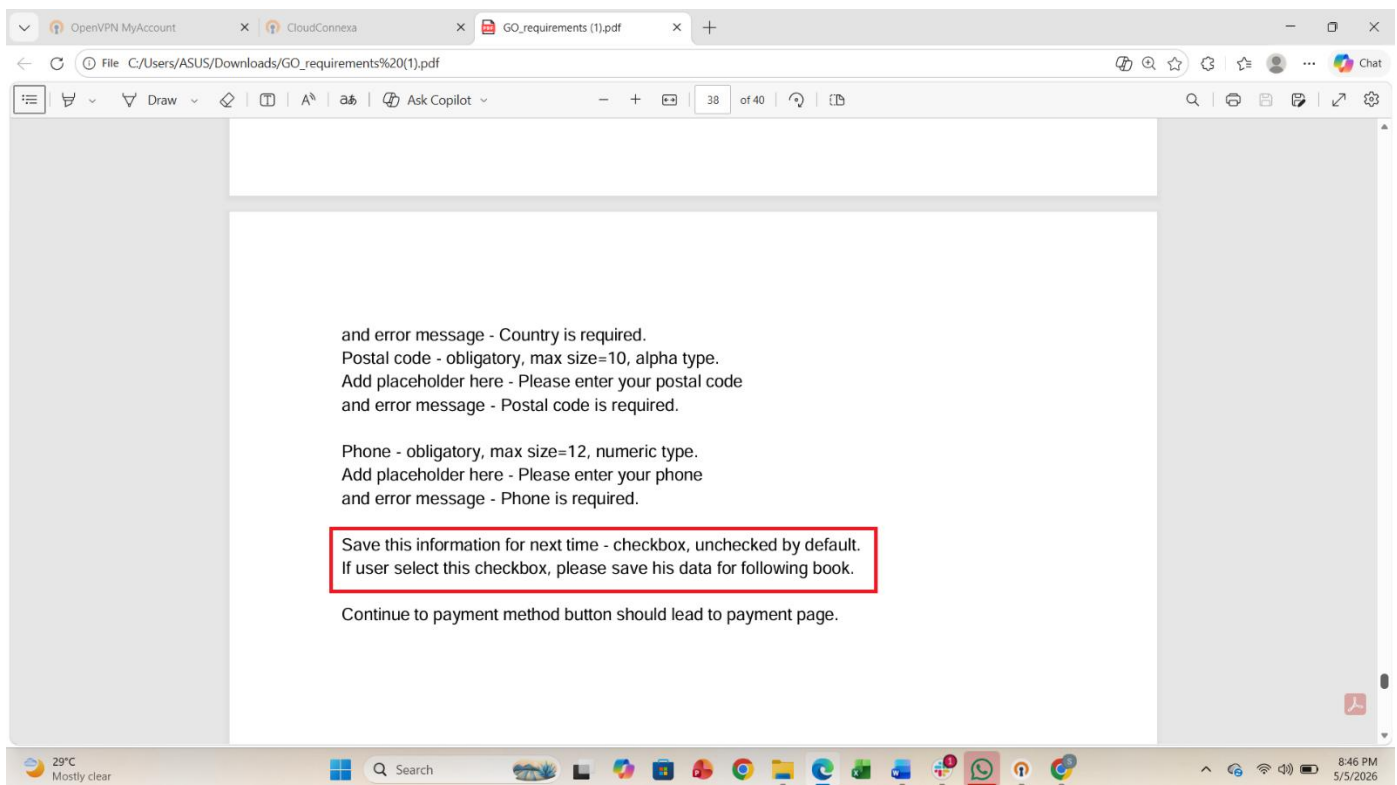

Type: Completeness

Description: The system allows saving user information for future bookings but does not define how data is stored or retrieved (e.g., login or session mechanism)

Expected: A clear mechanism for saving and retrieving user data

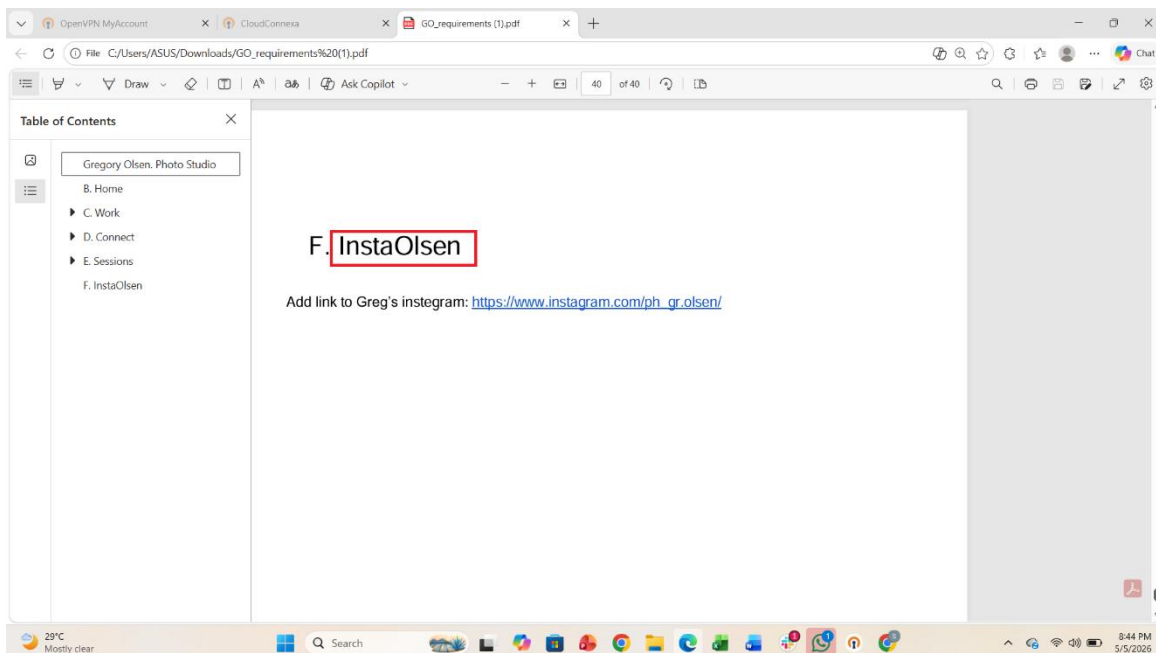

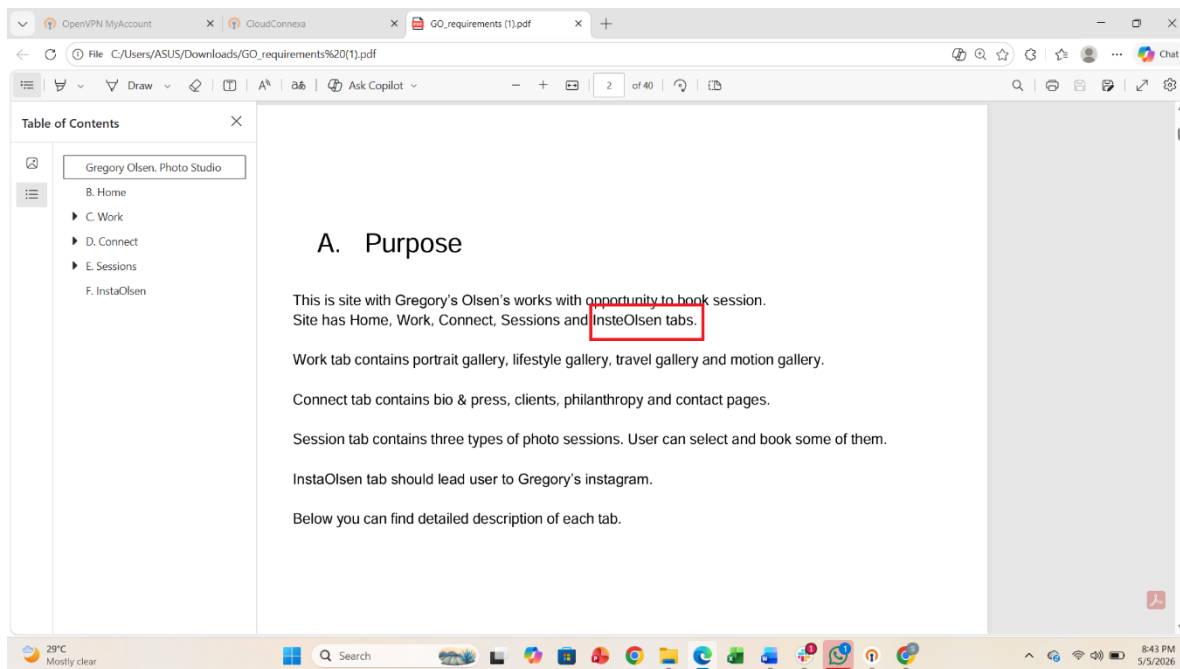

Actual: No such mechanism defined

Severity: Medium

Bug 2

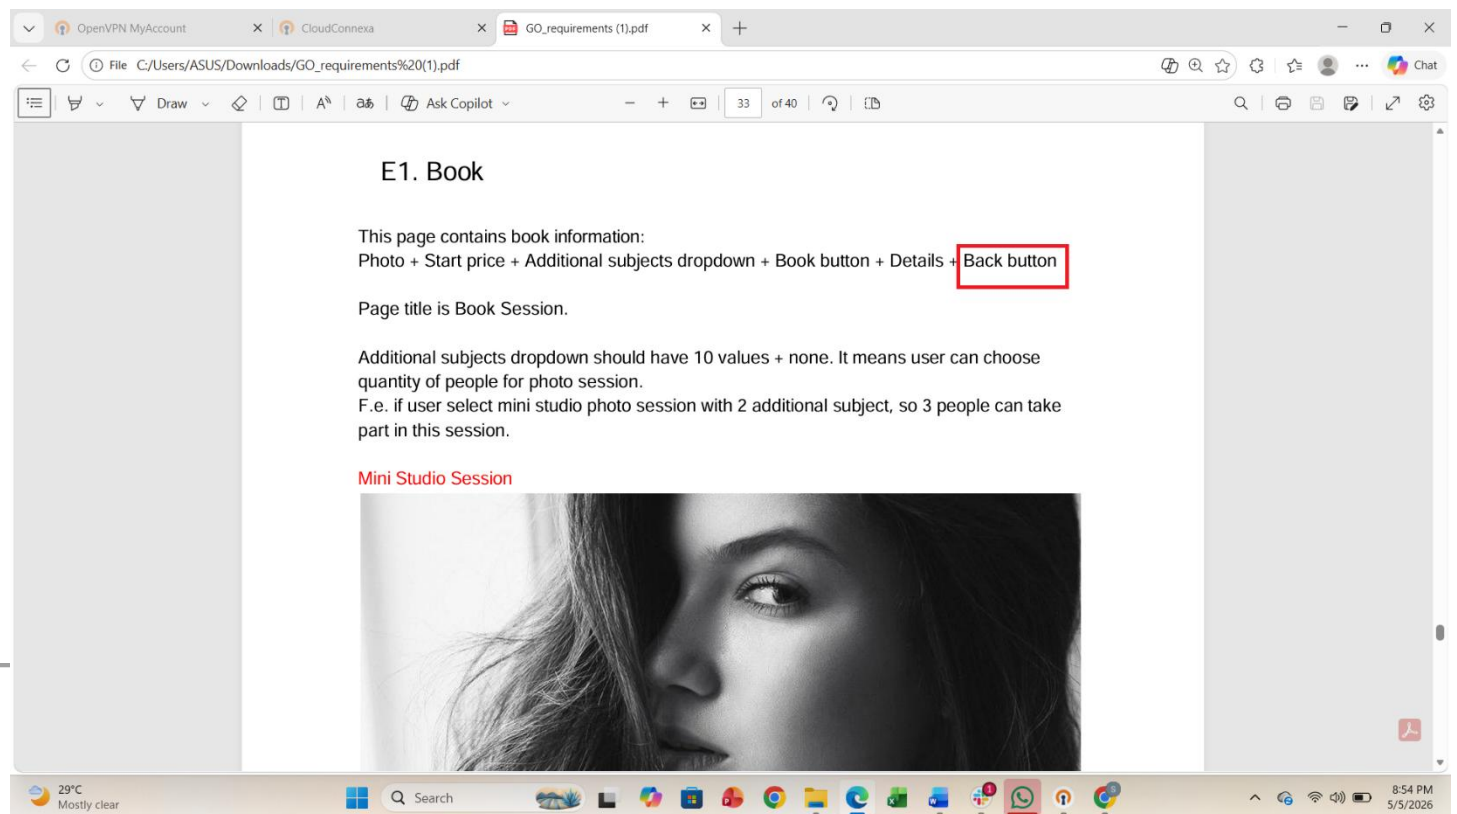

- **Title:** Inconsistent naming of InstaOlsen tab
- **Type:** Consistency
- **Description:** The tab name is written as both “InstaOlsen” and “InsteOlsen” in different sections
- **Expected:** One consistent naming across requirements
- **Actual:** Multiple variations used
- **Severity:** Medium

Bug-3

Missing Requirement – No behavior defined for “Back button”

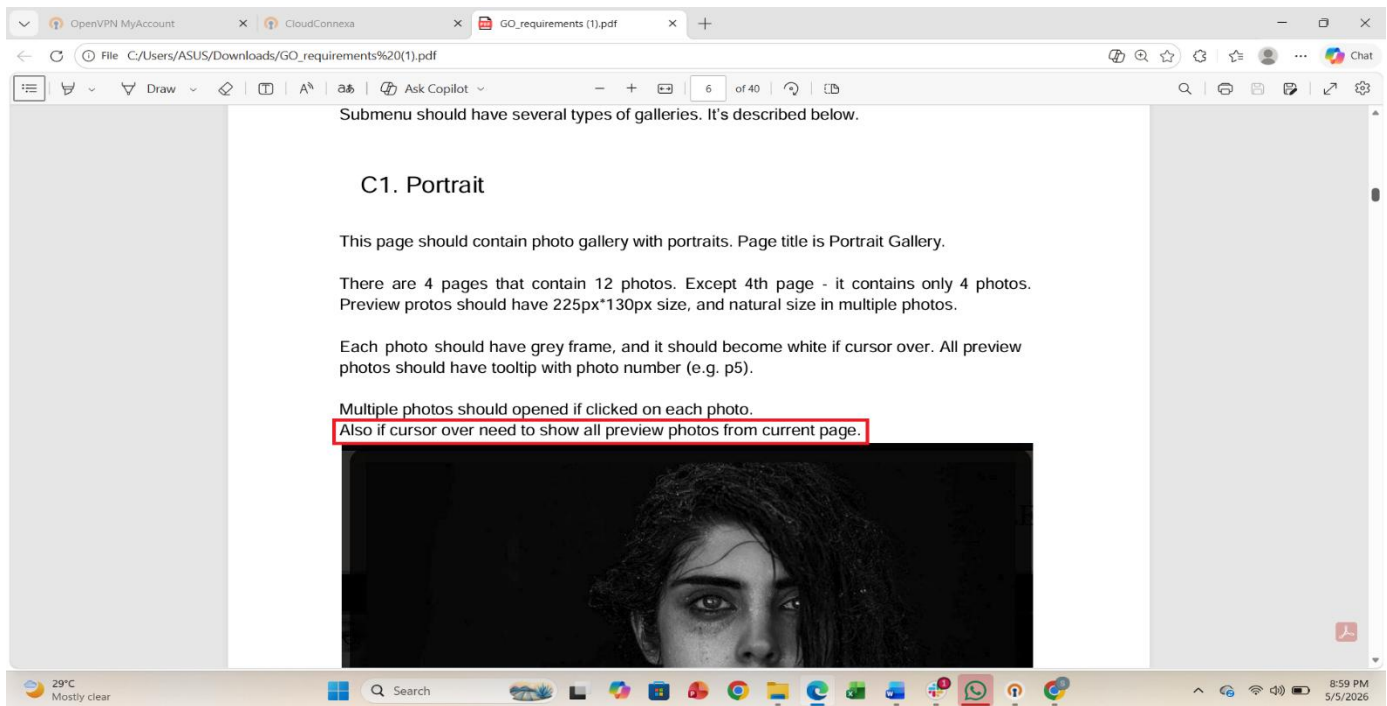

- **Title:** Back button functionality not defined
- **Type:** Completeness
- **Description:** Back button is mentioned in Book page but its navigation behavior is not specified
- **Expected:** Define where the back button redirects
- **Actual:** No behavior described
- **Severity:** Medium

Bug 4

Unclear Requirement – “Also if cursor over need to show all preview photos”

- **Title:** Unclear hover behavior in gallery
- **Type:** Clarity
- **Description:** Requirement does not clearly explain how all preview photos should be shown on hover
- **Expected:** Clear explanation of UI behavior
- **Actual:** Ambiguous instruction
- **Severity:** Medium

Bug 5

Missing Requirement – No error handling for payment failure

- **Title:** Missing payment failure handling
- **Type:** Completeness
- **Description:** Only success payment behavior is defined; failure scenarios are not described
- **Expected:** Define behavior for failed transactions
- **Actual:** No failure handling
- **Severity:** High

Payment Method

Owner CVV

Card Number

Expiration Date

After success payment need to send email to user <input email on book info page> and to Greg's mail.

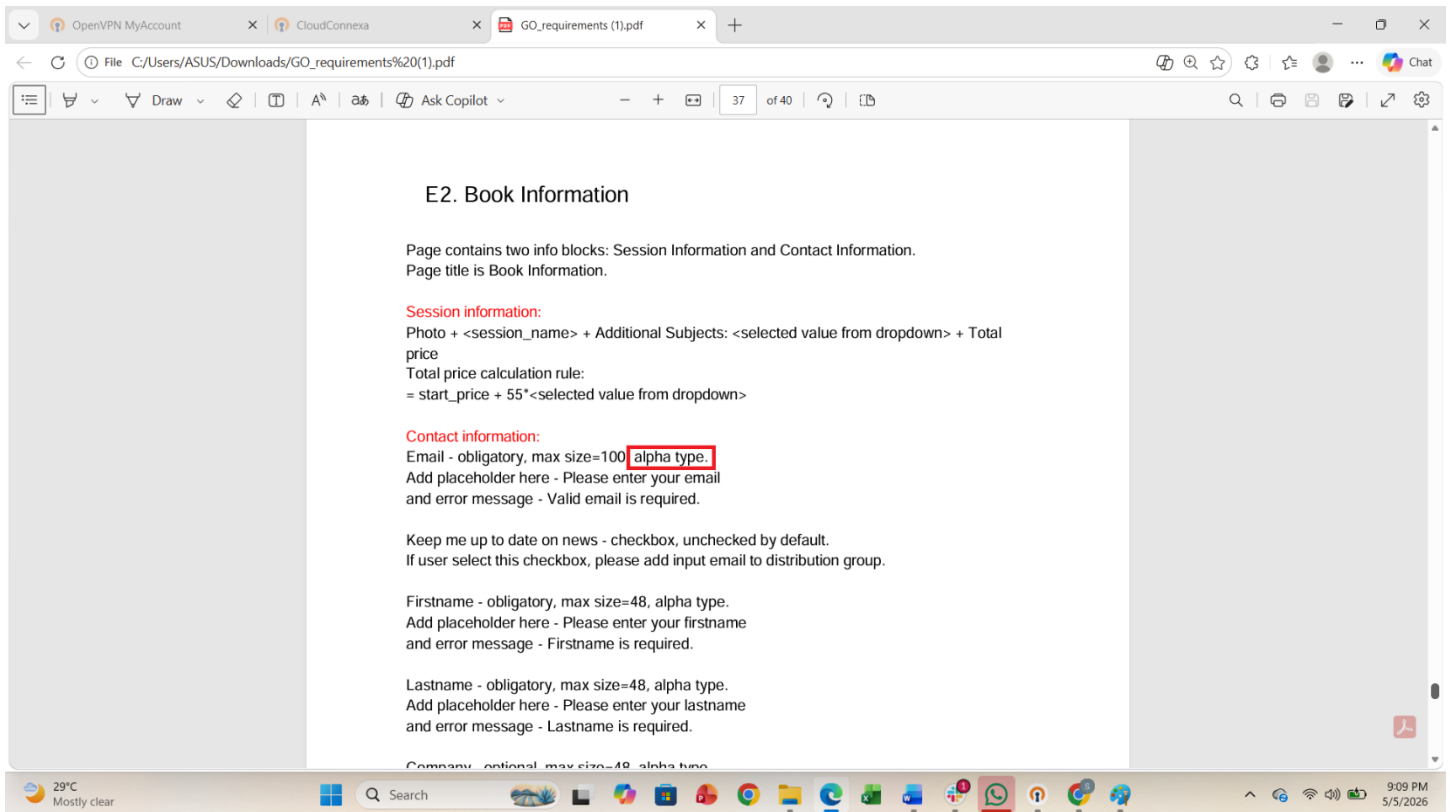

Letter content:

Hi,
<first name> <lastname> (<company>) client would like to have "<selected_session_name>" with <selected_additional_subjects> additional subjects.

Bug 6

Inconsistency – Email field defined as “alpha type”

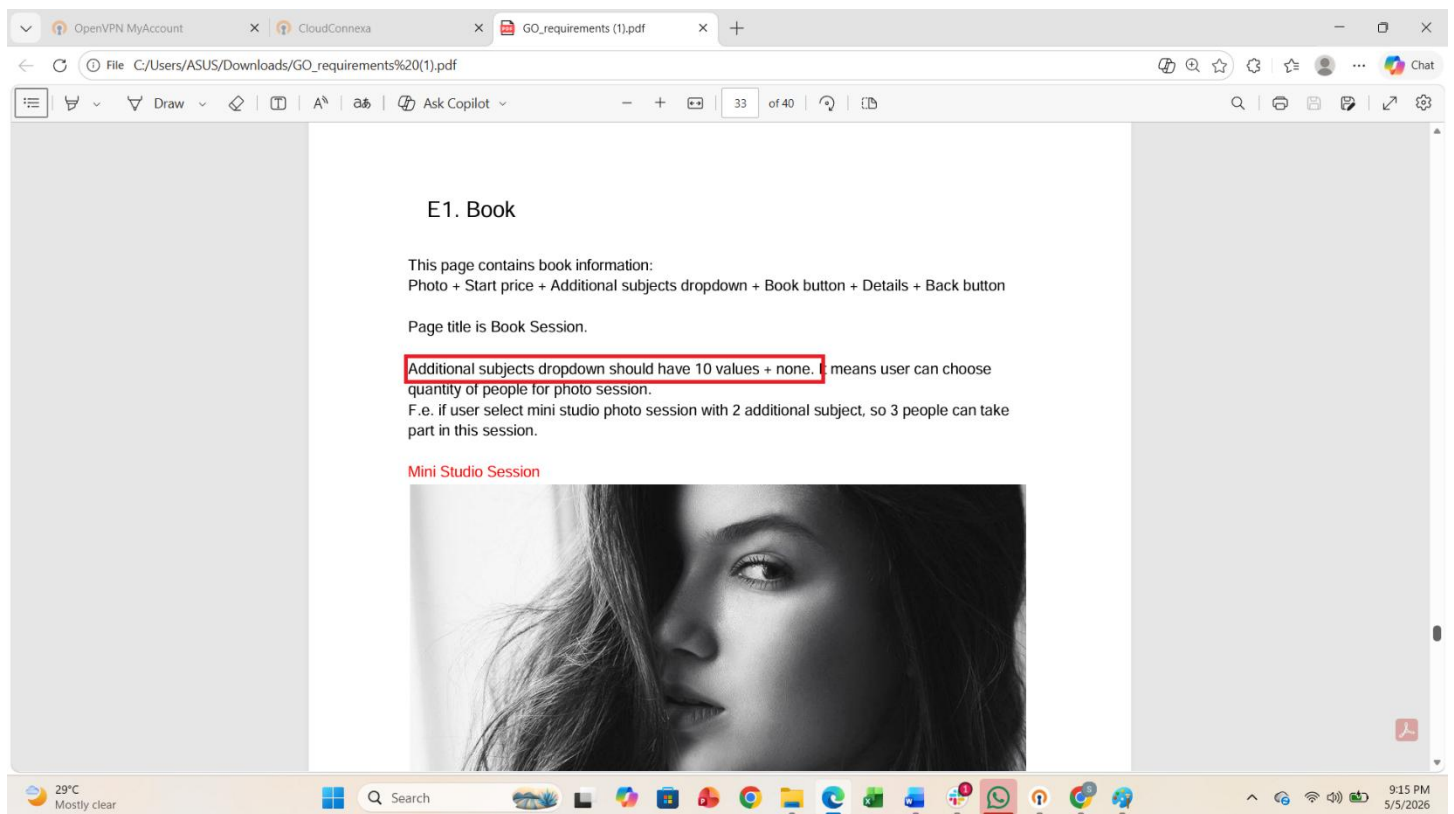

- **Title:** Incorrect data type for Email field
- **Type:** Consistency
- **Description:** Email field is defined as “alpha type” instead of email format
- **Expected:** Email type validation
- **Actual:** Alpha type specified
- **Severity:** High

Bug 7

Missing Requirement – No validation rules for dropdown values

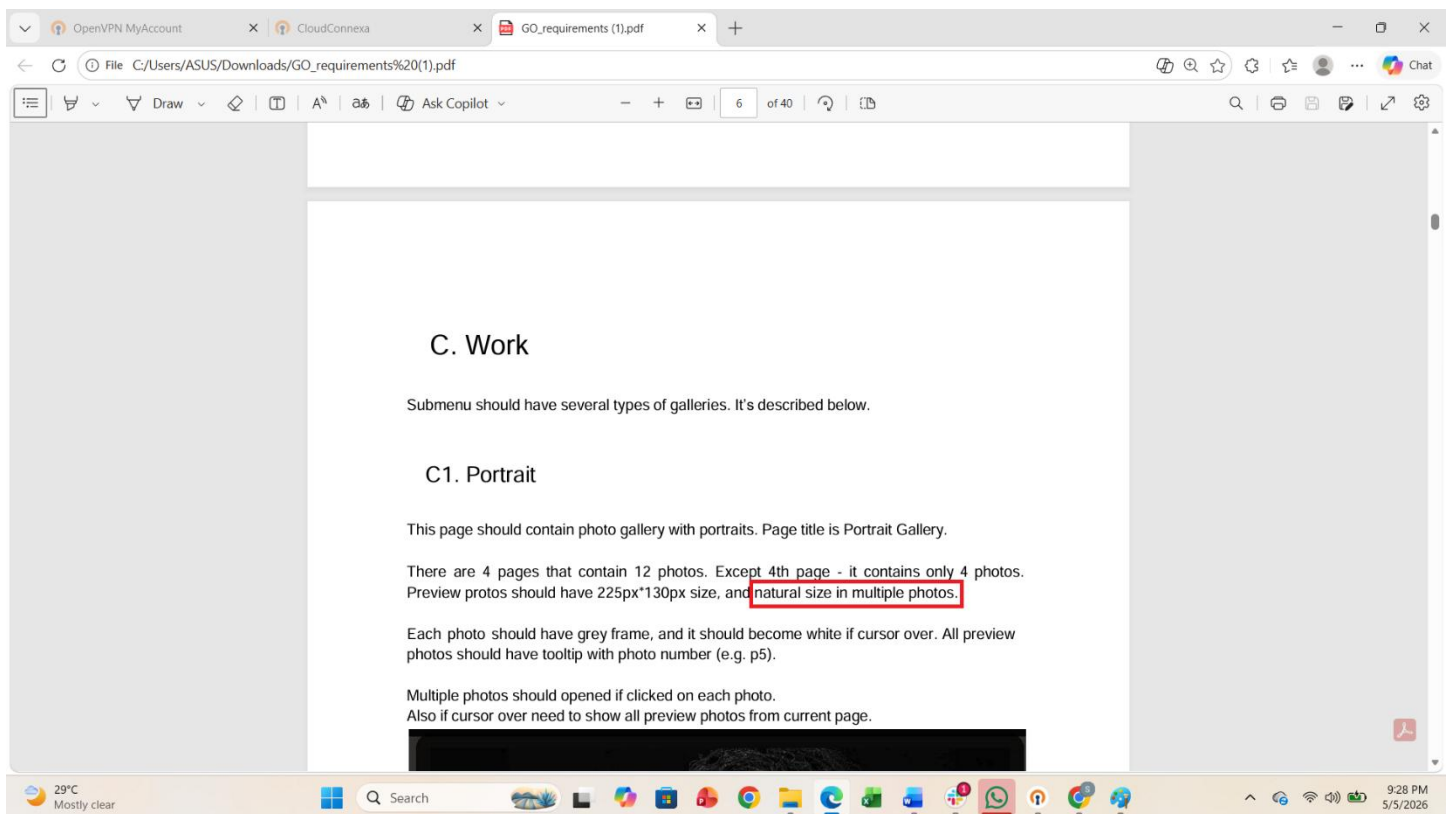

- **Title:** Missing validation for additional subjects dropdown
- **Type:** Completeness
- **Description:** Dropdown values defined but no validation for limits or incorrect input
- **Expected:** Validation rules defined
- **Actual:** Missing validation
- **Severity:** Medium

Bug 8

Unclear Requirement – “Natural size in multiple photos”

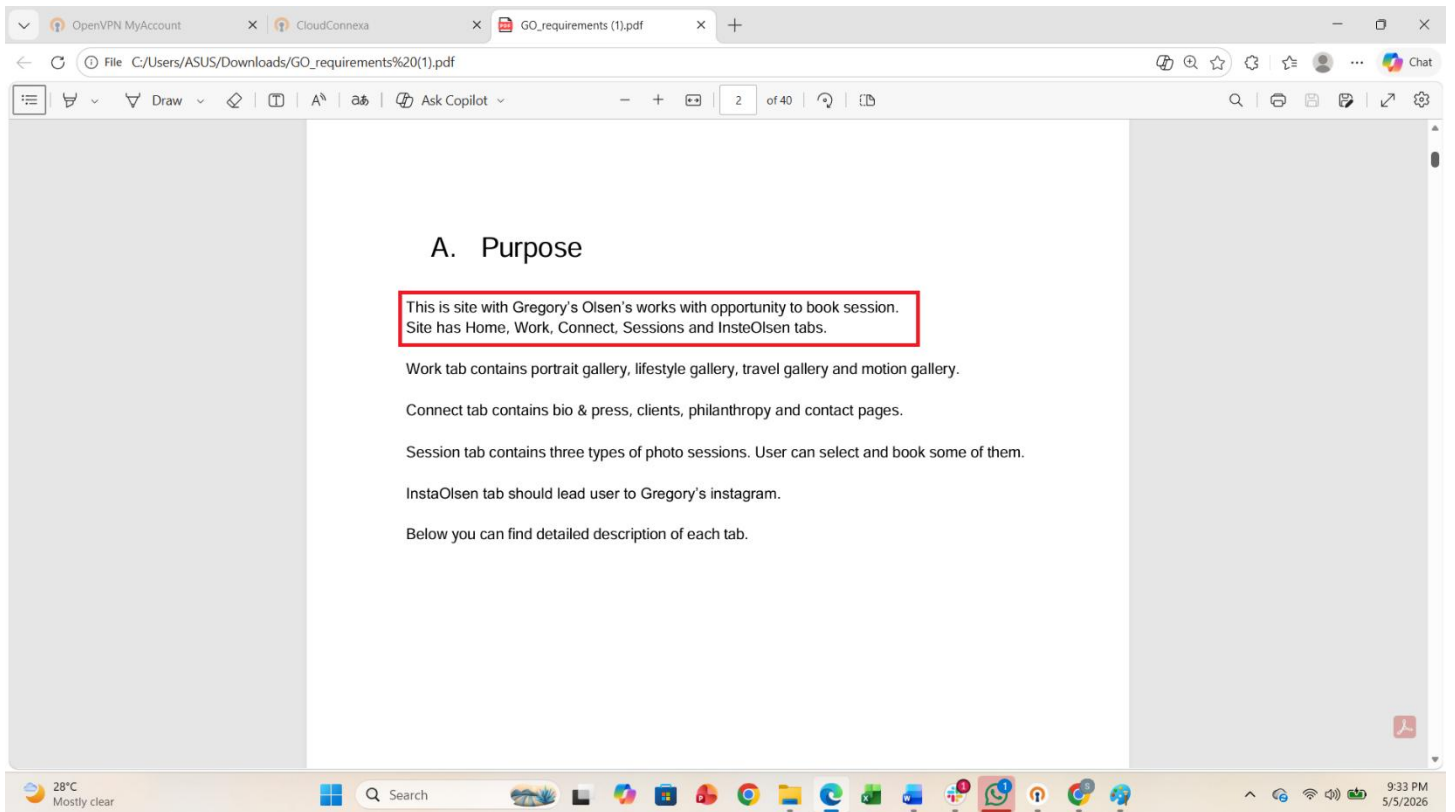

- **Title:** Ambiguous image size definition
- **Type:** Clarity
- **Description:** “Natural size” is not clearly defined (resolution, dimensions unclear)
- **Expected:** Exact size or scaling behavior
- **Actual:** Vague wording
- **Severity:** Low

Bug 9

Missing Requirement – No responsiveness defined

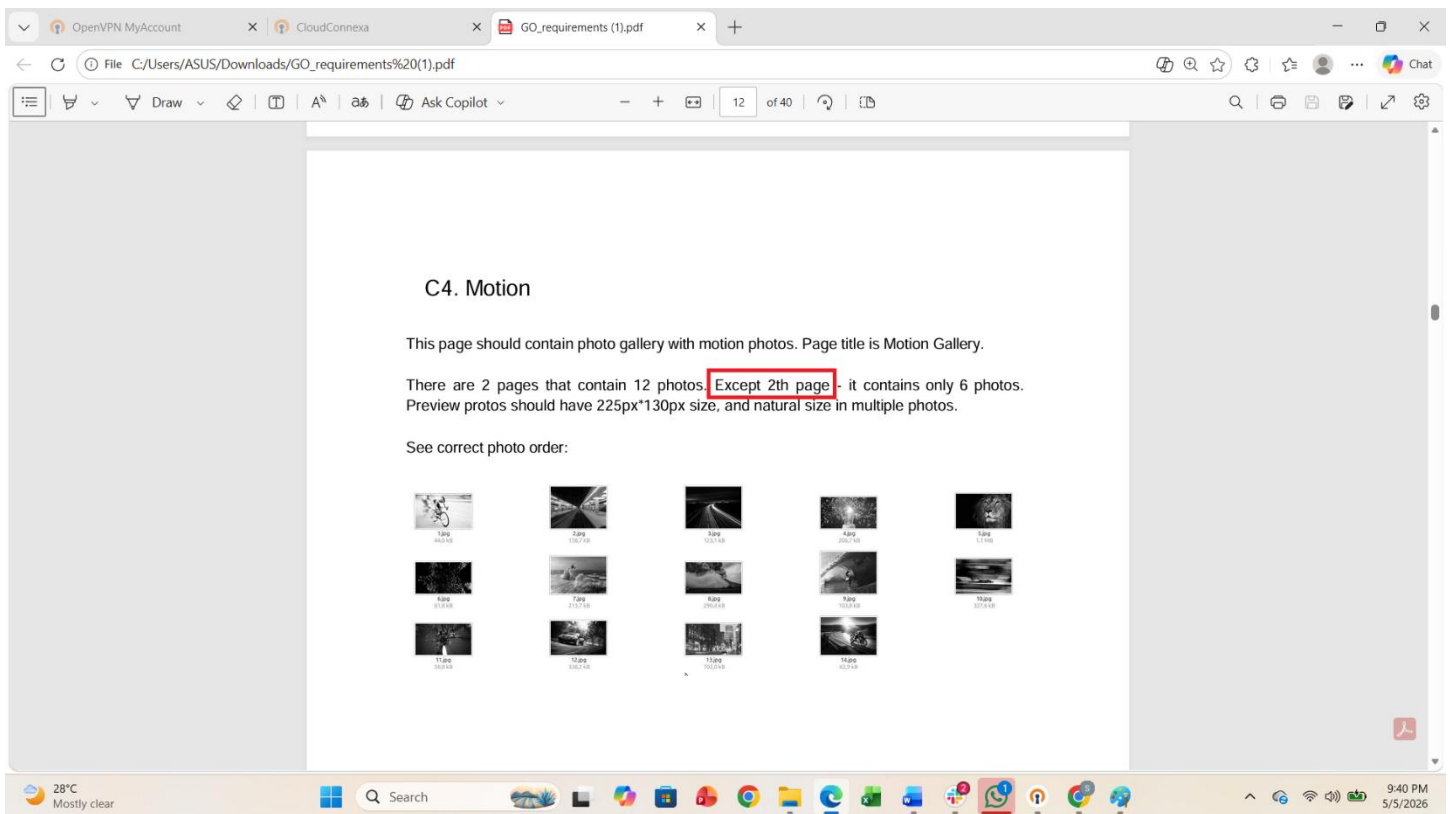

- **Title:** Missing responsive design requirements
- **Type:** Completeness
- **Description:** No mention of mobile/tablet behavior
- **Expected:** Define responsiveness
- **Actual:** Missing
- **Severity:** Medium

Bug 10

Inconsistency – “2th page” instead of “2nd page”

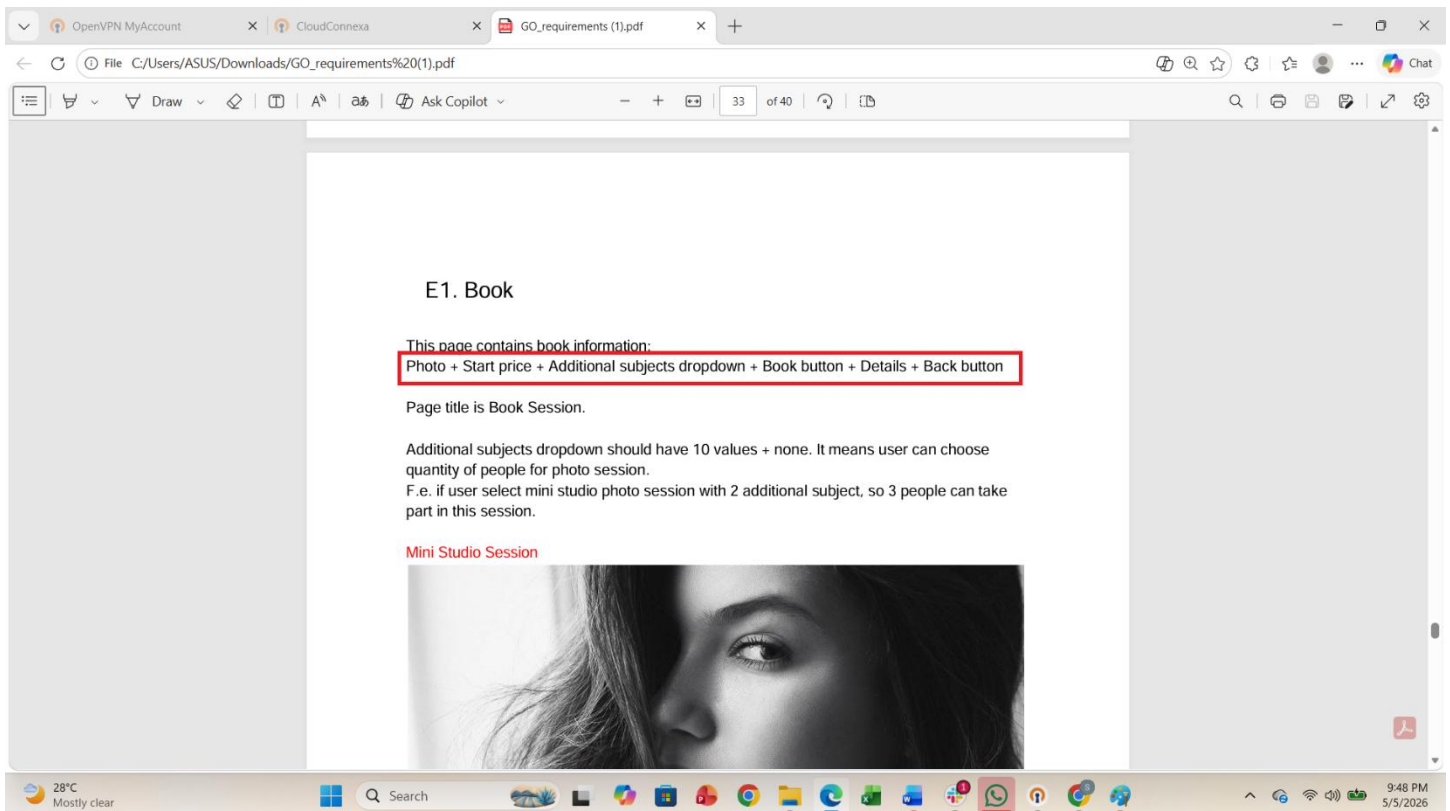

- **Title:** Incorrect ordinal naming in requirements
- **Type:** Consistency
- **Description:** “2th page” used instead of “2nd page”
- **Expected:** Correct naming
- **Actual:** Incorrect grammar
- **Severity:** Low

Bug 11

Missing Requirement – No confirmation after booking

- **Title:** Missing booking confirmation message
- **Type:** Completeness
- **Description:** No UI confirmation after booking session
- **Expected:** Confirmation message/page
- **Actual:** Not defined
- **Severity:** High

Bug 12

Unclear Requirement – “usual payment form”

- **Title:** Undefined payment form structure
- **Type:** Clarity
- **Description:** “Usual payment form” is vague and not defined
- **Expected:** Fields like card number, CVV, etc. clearly listed
- **Actual:** Not specified
- **Severity:** High

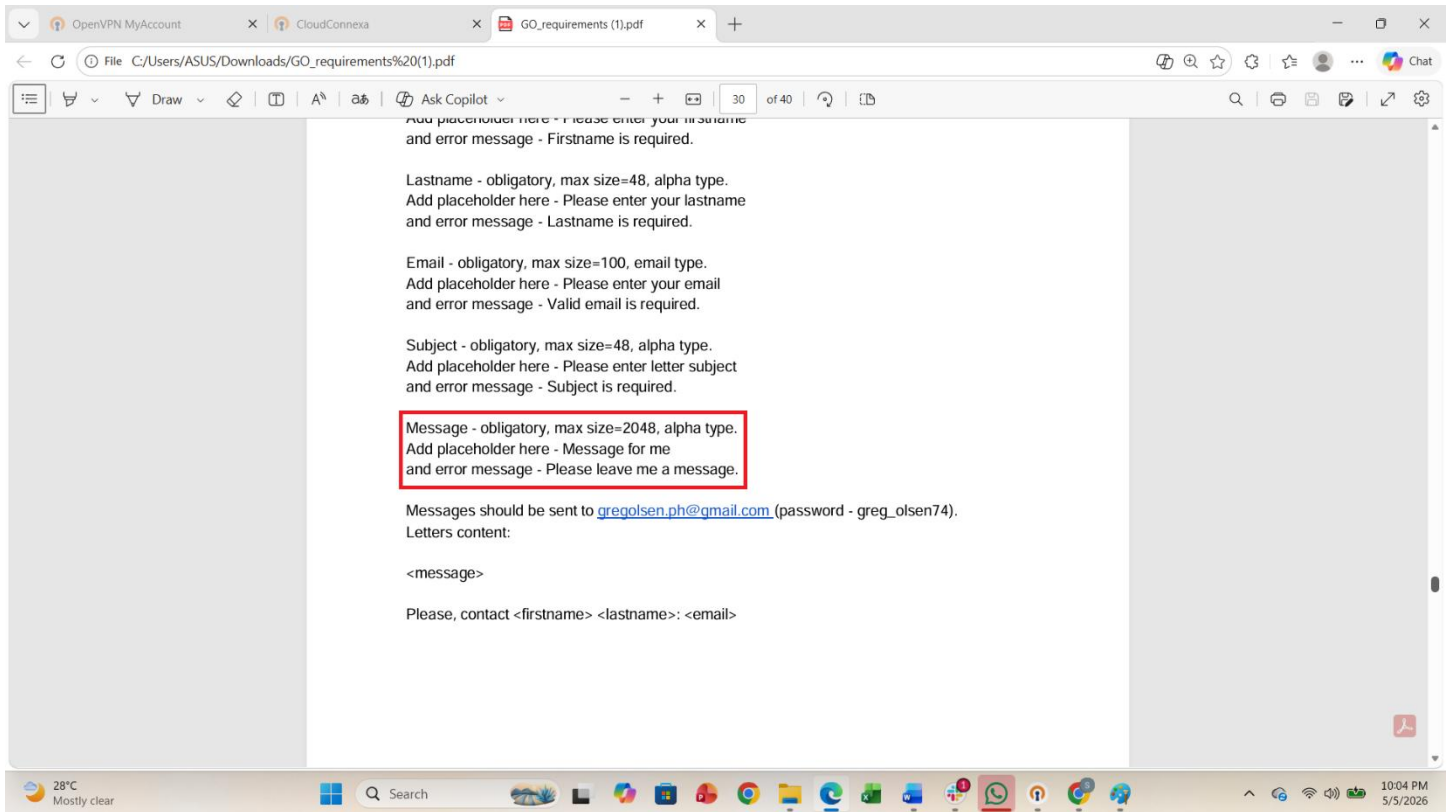

The screenshot shows a web browser window with the following elements:

- Browser Tabs:** OpenVPN MyAccount, CloudConnexa, GO_requirements (1).pdf.
- Address Bar:** File C:/Users/ASUS/Downloads/GO_requirements%20(1).pdf
- Page Title:** E3. Payment
- Requirement Highlight:** A red box highlights the text "This page has usual payment form".
- Form Title:** Payment Method
- Form Fields:**
 - Owner:** Text input field.
 - CVV:** Text input field.
 - Card Number:** Text input field.
 - Expiration Date:** Two dropdown menus for month (January) and year (2016).
- Payment Logos:** VISA, MasterCard, and AMEX logos.
- Confirm Button:** A green button labeled "Confirm".
- System Tray:** Shows weather (28°C Mostly clear), search bar, taskbar with various application icons, and system clock (9:52 PM 5/5/2026).

Bug 13

Missing Requirement – No validation for message field content

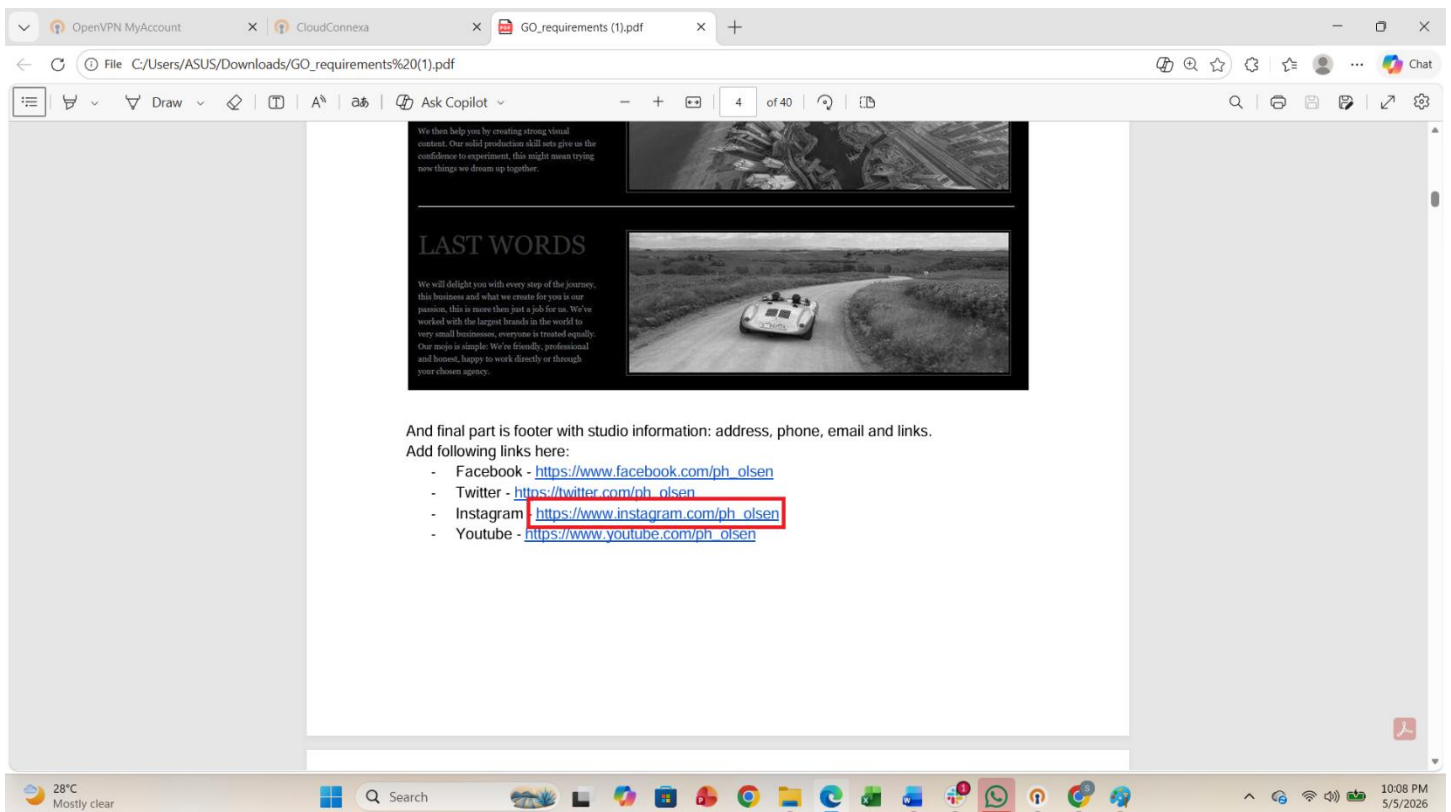

- **Title:** Missing validation rules for message field
- **Type:** Completeness
- **Description:** Only max length defined, no rules for allowed characters
- **Expected:** Clear validation rules
- **Actual:** Missing
- **Severity:** Low

Bug 14

Inconsistency – Instagram links mismatch

- **Title:** Different Instagram links used
- **Type:** Consistency
- **Description:** Footer uses one Instagram link, InstaOlsen uses another
- **Expected:** Same link everywhere
- **Actual:** Different links
- **Severity:** Medium

Bug 15

Missing Requirement – No loading/error handling for galleries

- **Title:** Missing gallery loading/error behavior
- **Type:** Completeness
- **Description:** No instructions for slow loading or failed images
- **Expected:** Define fallback behavior
- **Actual:** Missing
- **Severity:** Medium
